"Alicia Marie's "Inspired Goals Workshop" blew me away. I've read books, listened to training programs and felt I knew a lot about goals...until her workshop. The workshop took goals to a deeper level that I had ever experienced. Finally, I was able to realize that something "was in my way" and that without addressing this thing in my way, I would have been off and running with my goals that didn't get accomplished....again. I believe the workshop has helped me stop the recurring cycle of well-intended but never accomplished goals. I feel like I've been given a gift...a key to unlock the door I've been banging my head against for so many years. And it was Alicia Marie's style that allowed for this revelation. She is amazing at empowering the class to come up with their own "aha" moment rather than telling us what to do. She has such a humble aura of wisdom and patiently invites people to "get it" on their own terms. As a person that trains people, I am flat-out inspired with how she does it. Her genuine care and love for the class is beautifully evident. Thank you so much, Alicia, for being you."
